Fire Marshal Lemoin reported yesterday to the commissioners the arrival of the new steamer, and that it had been placed in service at No. 6 engine hones. Superintendent Bettinghouse reported the arrival of ten new fire alarm boxes, but as they were not accompanied by an indemnity bond they were not accepted.

Superintendent Eastman reported the ackness of eight men. He was asked about the regulation clothing worn by patrolmen, and replied that none of the men had complained to him, and that they were allowed to dress as warm as they desired. The talk about the men not being allowed to dress warmly was nonsense. He has asked about the suppression of unlawful acts committed in Travis' hall on East steet. Mr. Festman said hall on East street. Mr. Eastman said he had ordered the hall watched and the men reported that the hall had changed hands, and was being run in

an orderly manner. Marshai Lemoin recommended that William Delaney be confirmed as driver of No. 8 hose wagon, and that Titus Van Riestma be confirmed as heutenant of No. 9 hose company. Rediscipline. James Gallup complained of coasting on Fountain street side-walks. Referred to the superintendent of police. Morris O'Keefe resigned his position in the fire department.

Applications from the following per-

sons for positions on the police force were received: W. DeLaney, James F. Luce, M. F. Gray, C. E. Lee and Will

W. W. Webb made application for a position as engineer in the fire department. Placed on file.

Commissioners Smiled, The resolution offered last week in the council, that the police department suppress all dance halls where liquors are sold, and that all offenders be arrested, called a quiet smile to the faces of the commissioners. It was suggested that the common council had best give the policemen some guarantee that they would be supported if an arrest was made. It would very likely result in the policeman being forced to pay his own costs in case he made an legal arrest. It was considered that there was great danger in following such general orders from the common council. The matter was referred to the superintendent of police with or-ders that he learn from the alderman offering the resolution what dance halls he refers to and how he proposed to have the department proceed.

The committee on finance reported that the tipping over of the apparatus from No. I house on the night of December 14 was not the fault of the driver and that the rule be set aside and the damages be paid by the city instead of being taken from the pay of the driver. The report was adopted. Truant Officer Frank B. Fee was al-

lowed pay for two and one-half days while he was attending the state board

of charities.

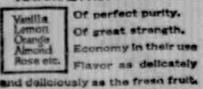

Accounts Allowed. The following bills were allowed. Rewarded His Honesty. The committee on men and discipline reported on the case of Michael Lynch, who was suspended for intoxication, that it found the suspension justifiable. Mr. Lynch was also found to be a truthful man, and his honesty was rewarded. Commissioner Withey said Mr. Lynch made a clean breast of it, confessed his fault in so manly a way that the committee thought he should be rewarded and while the offense was one for which a man should be discharged, in his case they recommended that the suspension be made for three months and that he be reprimanded by the president and told that if he ever came before the board again for any iffense he would be discharged immediately. The report was adopted. The same committee recommended the confirmation of S. A. Pelton as clerk and Mr. Barber as operator in headquarters. Adopted.

Youk the Buil by the Horas. The board went into executive seasion to discuss the refusal of the common council to pay the costs made in the suit of Eurroughs vs. Eastman et al. Mr. Bender was very mad and told what he thought of a set of men who, when advised by the mayor and city attorney that the city was morally bound to pay the bill, would sit and allow the report of the city attorney to

be tabled for the purpose of killing it. He was of the opinion that if the bill was not paid the discipline of the department would be greatly drippled. The officers when ordered to make an arrest would besitate for fear of the danger they would run of meeting the same treatment. The commissioners all considered it the most outrageous thing ever perpetrated on good and faithful officers of the police force. Mr. Bender said he the police force. Mr. Bender said he proposed that the board take the built right by the horns and pay the costs from their own contingent fund. He said the board had about \$500 in witness fees coming into his hand each year, and he was in favor of turning enough of these receipts into the con-tingent fund to make good the amount. session lasted fully an hour, and he commissioners expressed themselves with more force than elegance. It is probable that the bill of costs will be paid as Mr. Bender suggested.

THOSE JAIL REPAIRS. General and Not Temporary Repairs Are Most Needed.

At the session of the board of superisors yesterday, Supervisor Loomis took exceptions to the interviews published in yesterday's HERALD with Sheriff Lamoreaux and other county officers, in regard to their being prevented from ordering minor repairs without the express authority of the committee on public buildings.

Sheriff Lamoreaux was seen after the adjournment. He said that the remarks ascribed to him in THE HER-ALD were correct, although he would Primary Sunday school and kinder-garten teachers are invited to meet at published, and that the facts were true and were evidently endorsed by other county officers. He had hoped to get the entire courd to visit the jail and look over the property, but it had deemed best to refer the matter to the

ommittee on public buildings. Supervisor Loomis was asked for the grounds for his criticism. He said that Mr. Lamoresux's complaints were without foundation; that an arrangement had been made with ex-Sheriff McQueen to procure little supplies and order minor repairs, and that Mr. Lamoreaux might have made the same arrangement had he suggested it to the committee. He said there was not a single light of glass out of the jair building at present and that the com-mittee is ready to conform to reason

A reporter for THE HERALD looked over the jail building yesterday afternoon from cellar to garret. He found that while minor temporary repairs needed are of not great consequence, the need of a general rebuilding is woefully apparent. The open condition of basement windows and doors, as menti-ned by Sheriff Lamoreaux, appears to be more the result of lack f carpenter work and fastenings than lack of glass. The need of general rebuilding and extension cannot fail to e seen. A boy arrested for trusney was found locked in with half a dozen tough looking prisoners and the three floors of cells occupied by the men are lly ventilated, crowded and dirty. The spirit of decay has possession of all the building except the sheriff's living apartments, but the women's cell coms on the top floor are especially run down. and weariness, with tired limbs, numbness, trembling, prickly sensations,
cold feet ond legs, you are advancing
to that most serious disease—Paralysis.

If your head aches, feel numb and
ired, with sirange sensations, lose of
memory, and you think with difficulty
or you are sleepless at might, with
drownness and duliness during the
day, the nerve and brain fatigue may
soon run into insanity or death.

If you have any of these feelings do
not neglect them, or they will ending
paralysis, insanity, prostration or
death.

As you value your life do not neglect these warnings. Time and experence has show and hundreds of
startling and marvelous curse have
proved, that these diseases are perfectly and completely cursed by DR.
